

THOMASS / Star Box Runner Guide

A runner may start from any control in the box except 'e' and 'E'.

They may choose to go left or right but must go to a connected control except for HC 6 who will only visit one box control. To clarify, let us consider the first box and we will start at 'a' and go right. Here is the order for each handicap.

- HC 6: 2 - a - 3
- HC 5: 2 - a - d - 3
- HC 4: 2 - a - d - b - 3
- HC 3: 2 - a - d - b - f - 3
- HC 2: 2 - a - d - b - f - c - 3
- HC 1: 2 - a - d - b - f - c - a - 3**
- NEW! OR**
- 2 - a - d - b - f - c - e - 3
- HC 0: 2 - a - d - b - f - c - a - e - 3

Alternatively, a runner may choose to go left from 'a' or they may choose to start from any other control (except 'e') and go either left or right.

NOTE: A HC1 runner may **close the star OR get 'e' after getting the other controls** in order before leaving the box. **NEW!**

A HC0 runner **MUST** close the star before getting 'e'.
